## **DETAILED ACTION**

This office action is in response to application filed on January 16, 2001 (Paper No. 1).

Original application contained Claims 1-2. Therefore, presently Claims 1-2 are pending for further consideration.

## Information Disclosure Statement

The information disclosure statement filed January 16, 2001 (Paper No. 4) fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

## Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Application/Control Number: 09/761,112

Art Unit: 2131

- 2. Claims 1-2 are rejected under 35 U.S.C. 102(e) as being anticipated by Novikov et al. (U. S. Patent 6,282,304).
- 3. Regarding Claim 1 Novikov teach and describe an access control system, comprising:
- an electronic device adapted for operation using power from a power source, said power source energizing a circuit of said electronic device for enabling a startup procedure of said electronic device; a switch, coupled between said power source and said processor, for enabling said energizing of said circuit responsive to an assertion of an activation signal (col.5 line 6 to col.7 line 16); and
- a biometric reader coupled to said switch, comprising: a memory for storing a biometric signature; a biometric sensor, coupled to said memory, for discerning a biometric profile; and a verifier, coupled to said biometric sensor and to said memory, for asserting said activation signal when said biometric profile matches said biometric signature (col.7 line 17 to col.9 line 27).
- 4. Regarding Claim 2 Novikov teach and describe a method for controlling access to an electronic device, comprising:
- discerning a biometric profile of a prospective user of the electronic device; comparing said biometric profile to a stored biometric signature of an authorized user of the electronic device; thereafter asserting an activation signal to a switch when said prospective user is an authorized user, said switch interposed between a power source of the electronic device and a circuit of the electronic device for enabling a startup procedure of said electronic device such

Application/Control Number: 09/761,112

Art Unit: 2131

that said switch interrupts power to said circuit when said activation signal is not asserted (col.5

line 25 to line 42, and col.16 line 56 to col.17 line 18).

Conclusion

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Syed Zia whose telephone number is 703-305-3881. The

examiner can normally be reached on Monday - Friday 9:00 AM to 5:00 PM EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Ayaz Sheikh can be reached on 703-305-9648. The fax phone number for the

organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent

Application Information Retrieval (PAIR) system. Status information for published applications

may be obtained from either Private PAIR or Public PAIR. Status information for unpublished

applications is available through Private PAIR only. For more information about the PAIR

system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR

system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
